EDUCATION PATHWAYS IN AUSTRALIA: HOW TO CHOOSE THE RIGHT ONE

Australia offers world-class education across all levels. Here's how to find the path that fits:

1. **Undergraduate Degrees** – For high school graduates or diploma holders
2. **Vocational Training (TAFE)** – Hands-on, practical skills for trades and careers
3. **Postgraduate Programs** – Masters and Doctorates for academic or professional growth
4. **Short Courses & Certificates** – Great for skill upgrades or migration points

Tip: Make sure the school is CRICOS-registered to ensure your qualification is recognized and valid for student visas.
